1. Why did Lila focus on communication and storytelling skills?

1 / 1 point

- ☐ To impress her friends
- ☐ To become a writer
- ☒ To communicate her findings effectively as a data scientist
- ☐ To improve her public speaking abilities

Correct

Correct! Lila focused on communication and storytelling skills to effectively convey her findings as a data scientist.

2. What is the importance of domain knowledge in data science?

1 / 1 point

- ☐ It helps you become a better e-commerce website developer.
- ☒ It allows you to apply data science skills effectively in a specific field.
- ☐ It helps you become a software developer.
- ☐ It's not important at all.

Correct

Correct! Domain knowledge is crucial in data science as it enables the application of data science skills to a specific field or industry.

3. What key skills did Lila acquire during her data science education?

1 / 1 point

- ☐ Music and art appreciation
- ☐ History and literature knowledge
- ☐ Cooking and gardening
- ☒ Statistics, machine learning, data analysis

Correct

Correct! During her data science education, Sarah acquired statistics, machine learning, and data analysis skills.

4. What sources did Lila explore to procure data for her data science project?

1 / 1 point

- ☐ Websites and libraries
- ☐ Product professionals, data engineers, and domain specialists
- ☐ Only repositories and databases
- ☒ Various repositories, websites, and databases

Correct

Correct! Lila explored a variety of sources to procure data for her data science project, including repositories, websites, and databases. This diversity in data sources allowed her to gather valuable real-world data for her analysis.

5. What does Lila do at the end of her first project as a junior data scientist to effectively convey insights and recommendations to stakeholders?

1 / 1 point

- ☐ She shares raw data with stakeholders.
- ☐ She writes a blog post.
- ☒ She creates a comprehensive report or presentation.
- ☐ She organizes a meeting with stakeholders.

Correct

Correct! Lila compiles her analysis and findings into a comprehensive report or presentation. This allows her to structure and present the information clearly and organized, making it easier for stakeholders to understand and act upon the insights provided.
