"Update your stored procedure definition again. Add a statement to commit the current unit of work at the end of the procedure."

What will be the nature of the edit that will be done to the stored procedure?

Add the statement "COMMIT WORK" before the IF ELSE statement structure.

Add the statement "COMMIT WORK".

Add the statement "COMMIT WORK" after the IF ELSE statement structure.

Add the statement "COMMIT WORK" after the IF ELSE statement structure.

Correct! The stored procedure will need the statement after the IF ELSE statement.
